

ORGN (Oregon Real Time GNSS Network) RINEX File Search and Download Guide

Contents

[Searching for files](#)

[Downloading files](#)

Searching for files

To begin searching for files, select a **Station Id** from the drop down list:

Search Criteria

Station Id Reference Date

Show records per page

☐

Station Id	File Name	Size (KB)
No data available in table		

No records to show

The **Search** button will then be enabled to retrieve all files for that Station, or additionally pick a **Reference Date** to narrow results to a given day:

Search Criteria

Station Id

ADEL

Reference Date

07/01/2025

Jul

2025

2

Next

NOTE: a maximum of 500 results will be shown.

Downloading files

Resulting files can be downloaded in bulk into a **Zip** file by selecting the check boxes, either by clicking the select-all box in the results grid header or on individual rows. Then click the **Download Selected** button:

NOTE: a maximum of 24 rows can be selected to download to prevent an excessive Zip file size. The download button will be disabled when 25 or more are selected.
